**Table 4. Household Trips from the San Diego Metropolitan Area to the Most Frequent State Destinations, by Selected Trip Characteristics: 1995**

[Trips of 100 miles or more, one way. Data based on a sample and subject to sampling variability; see documentation. For definitions of terms and metropolitan area, see documentation. Symbol -- means "rounds to or represents zero." NA means "Not Applicable." NM means data are not meaningful or data do not meet publication standards due to high sampling variability. Some unpublished estimates can be derived by subtracting published data from their respective totals. However, the estimates obtained by such subtraction are subject to these same limitations. Numbers are in thousands. The most frequent State destinations are those States with the 10 largest volumes of travel from the San Diego Metropolitan Area.]

**1995 American Travel Survey--Summary Travel Characteristics (No. BTS/ATS95-ESTC/7320)**

**Table 18. Person Trips to the San Diego Metropolitan Area from the Most Frequent State Origins, by Selected Traveler Characteristics: 1995**  
 [Trips of 100 miles or more, one way. Data based on a sample and subject to sampling variability; see documentation. For definitions of terms and metropolitan area, see documentation. Symbol -- means "rounds to or represents zero." NA means "Not Applicable." NM means data are not meaningful or data do not meet publication standards due to high sampling variability. Some unpublished estimates can be derived by subtracting published data from their respective totals. However, the estimates obtained by such subtraction are subject to these same limitations. Numbers are in thousands. The most frequent State origins are those States with the 10 largest volumes of travel to the San Diego Metropolitan Area.]
